BUDGET BOUTIQUE APARTMENTS

Insider review: Serviced apartments make great financial sense if you're travelling in a group. Eric is an architect from Copenhagen who has turned a 19th-century building into 16 swish two-bed suites and one three-bed suite. The kitchens have every conceivable gadget, the lounges have a cool Nordic feel and the apartments are in the hippest part of town. Eric also has a building in Atocha with one-bed apartments and a pool.
